Online Refresher Course: Life Sciences

(DATE: 29/01/2024 TO 11/02/2024)

Objectives:

1. Enable the teachers to keep abreast with the latest developments in their field of specialization and also equip them with the necessary functional skills
2. Motivate the teachers to accept the challenges of quality teaching and take up research projects in their disciplines
3. Facilitate the application of new knowledge in their discipline for industrial and social development
4. Provide exposure to emerging cross-discipline advanced studies for taking up interdisciplinary research

Coverage: The advances in the area of genetics, genomics, and molecular biology have grown by leaps and bounds with the resultant need to rein in these advances with relevance to developing countries. The recent advances in the field of areas of Biological sciences and Bioresource Technology like stem cell research and stored tissue including DNA banking, plant biotechnology, and novel recombinant products from microorganisms, have led to growing interest. Research in regenerative medicine for the production of organs and implants, the Production of nanomaterials and their application in the field of medicine, agriculture, and environment management, and novel metabolite creation with the help of metabolic engineering will lead to a paradigm shift.

The program will be in tune with the NEP2020
