Faculty Development Programme (Offline mode)

“Economic Statistics – Teaching and Research”
(24 November 2025 to 30 November 2025)

Objectives:

The objective of this course is to equip teachers of Economics with Statistical tools for teaching and research, primarily aimed at teachers teaching Economics at a fundamental level. The output of Economic statistics provides vital information and insights that are pivotal to policy-making and decision-making.

Coverage:

The course offers comprehensive coverage of key statistical tools and techniques used in economic analysis and decision-making. It begins with foundational concepts such as data types, sources, and methods of data collection, followed by descriptive statistics, including measures of central tendency, dispersion, and correlation. The course progresses to inferential statistics, covering probability distributions, sampling theory, estimation, and hypothesis testing. Special emphasis is placed on the application of statistical methods to real-world economic data, such as index numbers, time series analysis, and regression models.

Pedagogy:

The teaching-learning pedagogy would include interactive discussions, lectures, demonstrations of solving economic statistics sums, home assignments, presentations, and participation in Q&A sessions by the learners, among others. Participants will receive hands-on training to equip them to teach Economic Statistics and associated subjects, along with learning tools to be used in research.

Registration Details:

Participants should visit the Website: <https://hrdcspu.ac.in/> select the course from the Apply Online section, and register for the course by **18/11/2025**.
